Journal of Periodontology

Subject Index to Volume 61, 1990 (Numbers 1 through 12)

A

ABSTRACTS 716, 773.
ACETAMINOPHEN
Analgesic efficacy of flurbiprofen as compared to acetaminophen and placebo after periodontal surgery. Gallardo F, et al. 224.
ACID ETCHING, DENTAL
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
ACTINOBACILLUS ACTINOMYCETEMCOMITANS
Identification of *Actinobacillus actinomycetemcomitans* by gold immunolabeling and scanning electron microscopy. Carrassi A, et al. 249.
Multi-center clinical evaluation of a chairside method for detecting certain periodontopathic bacteria in periodontal disease. Loesche WJ, et al. 189.
Periodontitis associated with Papillon-LeFèvre syndrome. Bimstein E, et al. 373.
ACTINOBACILLUS ACTINOMYCETEMCOMITANS/analysis
Molecular genetic analysis of *Actinobacillus actinomycetemcomitans* epidemiology. Zambon JJ, et al. 75.
ACTINOBACILLUS ACTINOMYCETEMCOMITANS/occurrence
Actinobacillus actinomycetemcomitans in families afflicted with early onset periodontitis. Gunsolley JC, et al. 643.
ADOLESCENCE
Occurrence of periodontitis in an urban adolescent population. Perry DA, et al. 185.
AGING
Prevalence and risk indicators for periodontal attachment loss in a population of older community-dwelling blacks and whites. Beck JD, et al. 521.
AIDS/complications
Studies of the subgingival microflora in patients with acquired immunodeficiency syndrome. Zambon JJ et al. 699.
ALVEOLAR BONE/radiography
A contemporary perspective on techniques for the clinical assessment of alveolar bone. Hausmann E. 149.
ALVEOLAR PROCESS
Early-onset periodontitis: Radiographic patterns of alveolar bone loss in 55 cases from a selected Malaysian population. Yusof ZA. 751.
Periodontal disease morbidity quantification. II. Validation of alveolar bone loss measurements and vertical defect diagnosis from digital bite-wing images. Hildebolt CF, et al. 623.
ALVEOLAR PROCESS/surgery
Effects on the periodontium following corticotomy-facilitated orthodontics. Case reports. Gantes B, et al. 234.
ALVEOLAR RIDGE AUGMENTATION
Localized ridge augmentation in dogs: A pilot study using membranes and hydroxyapatite. Seibert J, et al. 157.
ALVEOLAR RIDGE NEOPLASMS
Bone formation in peripheral giant cell granuloma. Dayan D, et al. 444.
AMELOBLASTOMA
A case of ameloblastoma presenting as an exophytic gingival lesion. Stevenson ARL, et al. 378.
Peripheral ameloblastoma of the gingiva. A case report. Mintz S, et al. 649.
AMERICAN ACADEMY OF PERIODONTOLOGY
Annual Meeting program, 467.
Orban competition abstracts, 309, 773.
President, 1.
Presidential address, 142.
Research Forum abstracts, 309.
AMOXICILLIN/therapeutic use
Microbiology in diagnosis and treatment of severe periodontitis. A report of four cases. Goené RJ, et al. 61.
ANESTHETICS, LOCAL
Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.
ANTIGENS
Human gingival Langerhans cells stimulate allogeneic lymphocytes: Requirements for MHC Class II antigens. Walsh LJ, et al. 328.

B

B-CELL ACTIVATION
Stimulation of lymphocytes in vitro by *Bacteroides intermedius* and *Bacteroides (Porphyromonas) gingivalis* sonicates. Raber-Durlacher JE, et al. 217.
BACTEREMIA/etiology
Effects of subgingival irrigation on bacteremia following scaling and root planing. Waki MY, et al. 405.
BACTERIA, ANAEROBIC
Recolonization of the subgingival microflora after scaling and root planing in human periodontitis. Sbordone L, et al. 579.
BACTEROIDES FORSYTHUS
Multi-center clinical evaluation of a chairside method for detecting certain periodontopathic bacteria in periodontal disease. Loesche WJ, et al. 189.
BACTEROIDES GINGIVALIS
A family study of a mother and daughter with increased susceptibility to early-onset periodontitis: Microbiol-

ogical, immunological, host defensive, and genetic analyses. Nishimura F, et al. 755.
Multi-center clinical evaluation of a chairside method for detecting certain periodontopathic bacteria in periodontal disease. Loesche WJ, et al. 189.
BACTEROIDES GINGIVALIS ANTIGENS
Detection of *Bacteroides gingivalis* antigenic proteins by immunoblotting analysis. Laosrisin N, et al. 260.
BACTEROIDES INTERMEDIUS
Stimulation of lymphocytes in vitro by *Bacteroides intermedius* and *Bacteroides (Porphyromonas) gingivalis* sonicates. Raber-Durlacher JE, et al. 217.
BACTEROIDES (PORPHYROMONAS) GINGIVALIS
Stimulation of lymphocytes in vitro by *Bacteroides intermedius* and *Bacteroides (Porphyromonas) gingivalis* sonicates. Raber-Durlacher JE, et al. 217.
BEHCET'S DISEASE/therapy
Prolonged systemic administration of cyclosporin A affects gingival epithelium. Pisanty S, et al. 138.
BIOCOMPATIBILITY
Human clinical and histologic responses to the placement of HTR polymer particle in 11 intrabony lesions. Stahl SS, et al. 269.
In vitro release of doxycycline from bioabsorbable materials and acrylic strips. Larsen, T. 30.
BIODEGRADATION
Oxidized cellulose mesh used as a biodegradable membrane in the technique of guided tissue regeneration. A case report. Galgut, PN. 766.
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö, UME, et al. 719.
BLOOD/analysis
The effect of air abrasive polishing on blood pH and electrolytye concentrations in healthy mongrel dogs. Snyder JA, et al. 81.
BONDING, DENTAL
Sorption of fibronectin to human root surfaces in vitro. Mendieta C, et al. 254.
BONE AND BONES/growth
Localized ridge augmentation in dogs: A pilot study using membranes and hydroxyapatite. Seibert J, et al. 157.
BONE AND BONES/surgery
Responses of four tooth and site groupings to periodontal therapy. Kaldahl WB, et al. 173.
BONE LOSS
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
Periodontal conditions following treatment with distally extending cantilever bridges or removable partial dentures in elderly patients. A 5-year study. Isidor F, et al. 21.
BONE LOSS/radiography
Alveolar bone loss in patients with long-term supportive care. Layport CA, et al. 434.
BONE LOSS INDEX
Periodontal disease morbidity quantification. I. Optimal selection of teeth for periodontal bone loss surveys. Shrout, MK, et al. 618.
BONE NEOPLASMS
Peripheral ameloblastoma of the gingiva. A case report. Mintz S, et al. 649.
BONE REGENERATION
Bone formation in tricalcium phosphate-filled periodontal intrabony lesions. Histological observations in humans. Saffar JL, et al. 209.
Human clinical and histologic responses to the placement of HTR polymer particle in 11 intrabony lesions. Stahl SS, et al. 269.
The osteogenic potential of two composite graft systems using osteogenin. Doll BA, et al. 745.
BONE RESORPTION
Early-onset periodontitis: Radiographic patterns of alveolar bone loss in 55 cases from a selected Malaysian population. Yusof ZA. 751.
BONE RESORPTION/diagnosis
Periodontal disease morbidity quantification. I. Optimal selection of teeth for periodontal bone loss surveys. Shrout MK, et al. 618.
Periodontal disease morbidity quantification. II. Validation of alveolar bone loss measurements and vertical defect diagnosis from digital bite-wing images. Hildebolt CF, et al. 623.
BONE RESORPTION/radiography
Periodontal disease morbidity quantification. I. Optimal selection of teeth for periodontal bone loss surveys. Shrout MK, et al. 618.
Periodontal disease morbidity quantification. II. Validation of alveolar bone loss measurements and vertical defect diagnosis from digital bite-wing images. Hildebolt CF, et al. 623.
BONE RESORPTION/therapy
HTR polymer grafts in human periodontal osseous defects. I. Six-month clinical results. Yukna RA. 633.
BONE TRANSPLANTATION
Comparative clinical study of porous hydroxyapatite and decalcified freeze-dried bone in human periodontal defects. Oreamuno S, et al. 399.
The use of collagen membrane barriers in conjunction with combined demineralized bone-collagen gel implants in human infrabony defects. Blumenthal N, et al. 319.
A Veterans Administration Cooperative Study of biphasic calcium phosphate ceramic in periodontal osseous defects. Nery EB. et al. 737.

C

CALCIUM/adverse effects
A mineral-related feature of young plaque characteristic to periodontitis-affected adults. Sewón L, et al. 42.
CALCIUM PHOSPHATE
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
Bone formation in tricalcium phosphate-filled periodontal intrabony lesions. Histological observations in humans. Saffar JL, et al. 209.
A Veterans Administration Cooperative Study of bi-

phasic calcium phosphate ceramic in periodontal osseous defects. Nery EB, et al. 737.
CANCRUM ORIS
Necrotizing ulcerative gingivitis and cancrum oris (noma) in Ibadan, Nigeria. Osuji OO. 769.
CARDIOVASCULAR DISEASES
Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.
CELL ATTACHMENT
The effects of scaling titanium implant surfaces with metal and plastic instruments on cell attachment. Dmytryk JJ, et al. 491.
Inhibition of attachment of human gingival fibroblast-like cells in vitro by saliva and salivary-sulfated glycoprotein in the presence of serum. Heaney TG. 504.
A quantitative analysis of the migration, attachment, and orientation of human gingival fibroblasts to human dental root surfaces in vitro. Fardal O, et al. 529.
CELLS, LANGERHANS
Human gingival Langerhans cells stimulate allogeneic lymphocytes: Requirements for MHC Class II antigens. Walsh LJ, et al. 328.
CELLULOSE
Oxidized cellulose mesh used as a biodegradable membrane in the technique of guided tissue regeneration. A case report. Galgut PN. 766.
CEMENTUM
A quantitative study of cementum removal with hand curettes. Coldiron NB, et al. 293.
Sorption of fibronectin to human root surfaces in vitro. Mendieta C, et al. 254.
CEMENTUM/microbiology
Histological differences between teeth with adult periodontitis and prepubertal periodontitis. Lopez NJ, et al. 87.
CHEMOTAXIS/abnormalities
Neutrophil surface protein markers as indicators of defective chemotaxis in LJP. Van Dyke TE. et al. 180.
CHLORHEXIDINE/therapeutic use
Clinical and microbiological effects of subgingival and gingival marginal irrigation with chlorhexidine gluconate. Jolkovsky DL, et al. 663.
Effects of subgingival irrigation on bacteremia following scaling and root planing. Waki MY, et al. 405.
Irrigation with 0.06% chlorhexidine in naturally occurring gingivitis. II. 6 months microbiological observations. Newman MG, et al. 427.
A new degradable controlled release device for treatment of periodontal disease: In vitro release study. Steinberg D, et al. 393.
Supragingival irrigation with 0.06% chlorhexidine in naturally occurring gingivitis. I. 6 Month clinical observations. Flemmig TF. et al. 112.
Susceptibility of oral bacteria to phenoxyethanol and phenoxyethanol/chlordexidine combinations. Wilson M, et al. 536.
CHONDROITIN SULFATES
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
CITRIC ACID
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
Sorption of fibronectin to human root surfaces in vitro. Mendieta C, et al. 254.
CLINDAMYCIN/therapeutic use
The effect of clindamycin on the microbiota associated with refractory periodontitis. Walker C, et al. 892.
Efficacy of clindamycin hydrochloride in refractory periodontitis: 24-month results. Gordon J, et al. 686.
COLLAGEN
Antibody to collagen type I in gingival crevicular fluid. Refaie A, et al. 289.
Clinical evaluation of a biodegradable collagen membrane in guided tissue regeneration. Chung KM, et al. 732.
The osteogenic potential of two composite graft systems using osteogenin. Doll BA, et al. 745.
The use of collagen membrane barriers in conjunction with combined demineralized bone-collagen gel implants in human infrabony defects. Blumenthal N, et al. 319.
COLLAGEN/analysis
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
COLLAGEN/therapeutic use
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
COMPLEMENT, HEMOLYTIC
Total hemolytic complement (CH50) and its fractions (C3 and C4) in the sera of diabetic patients with periodontitis. Anil S, et al. 27.
COMPUTER-AIDED ANALYSIS
A computer-aided image analysis system for area measurement of tooth root surfaces. Verdonschot EH, et al. 275.
CONNECTIVE TISSUE
The histologic evaluation of new attachment in periodontally diseased human roots treated with tetracycline-hydrochloride and fibronectin. Alger FA, et al. 447.
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.
CONNECTIVE TISSUE/anatomy
Diphenylhydantoin-induced gingival overgrowth in man: A clinico-pathological study. Peñarrocha-Diago M, et al. 571.
CONNECTIVE TISSUE ATTACHMENT
Formation of periodontal ligament around titanium implants. Buser D, et al. 597.
Periodontal disease activity: A critical assessment. Greenstein G, et al. 543.
Periodontal repair in dogs: Effect of saliva contamination of the root surface. Wikesjö UME, et al. 559.
CORTICOTOMY
Effects on the periodontium following corticotomy-fa-

cilitated orthodontics. Case reports. Gantes B, et al. 234.
CYCLOSPORIN A/adverse effects
Prolonged systemic administration of cyclosporin A affects gingival epithelium. Pisanty S, et al. 138.
CYCLOSPORIN A/therapeutic use
Prolonged systemic administration of cyclosporin A affects gingival epithelium. Pisanty S, et al. 138.

D

DNA/analysis
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
DENTAL CALCULUS
The apical location of calculus within the intrabony defect. Richardson AC, et al. 118.
DENTAL CALCULUS/diagnosis
The effectiveness of subgingival scaling and root planing. I. Clinical detection of residual calculus. Sherman PR, et al. 3.
The effectiveness of subgingival scaling and root planing. II. Clinical responses related to residual calculus. Sherman PR, et al. 9.
DENTAL CALCULUS/therapy
The effectiveness of subgingival scaling and root planing. I. Clinical detection of residual calculus. Sherman PR, et al. 3.
The effectiveness of subgingival scaling and root planing. II. Clinical responses related to residual calculus. Sherman PR, et al. 9.
Guest editorial: The residual calculus paradox. Robertson PB. 65.
Total calculus removal: An attainable objective. Kepic TJ, et al. 16.
DENTAL DEPOSITS/analysis
Histological differences between teeth with adult periodontitis and prepubertal periodontitis. López NJ, et al. 87.
Morphologic and histochemical characteristics of the dental cuticle in teeth affected by prepubertal periodontitis. López NJ, et al. 95.
DENTAL ENAMEL
Effects of airpolishing on dental plaque removal and hard tissues as evaluated by scanning electron microscopy. Kontturi-Närhi V, et al. 334.
DENTAL FLOSS
Patient preference for waxed or unwaxed dental floss. Beaumont RH. 123.
DENTAL IMPLANTS
The effects of scaling a titanium implant surface with metal and plastic instruments: An in vitro study. Fox SC, et al. 485.
The effects of scaling titanium implant surfaces with metal and plastic instruments on cell attachment. Dmytryk JJ, et al. 491.
Formation of periodontal ligament around titanium implants. Buser D, et al. 597.
Human clinical and histologic responses to the placement of HTR polymer particles in 11 intrabony lesions. Stahl SS, et al. 269.
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.
DENTAL IMPLANTS, OSSEOINTEGRATED
Osseo-integrated implant treatment of a patient with rapidly progressive periodontitis. A case report. Malmstrom HS, et al. 300
DENTAL INSTRUMENTS
Comparison of measurement variability using a standard and constant force periodontal probe. Osborn J, et al. 497.
A new degradable controlled release device for treatment of periodontal disease: In vitro release study. Steinberg D, et al. 393.
DENTAL INSTRUMENTS/adverse effects
The effects of scaling a titanium implant surface with metal and plastic instruments: An in vitro study. Fox SC, et al. 485.
The effects of scaling titanium implant surfaces with metal and plastic instruments on cell attachment. Dmytryk JJ, et al. 491.
DENTAL PLAQUE/adverse effects
Effects of airpolishing on dental plaque removal and hard tissues as evaluated by scanning electron microscopy. Kontturi-Närhi V, et al. 334.
Relationship of gingival bleeding, gingival suppuration, and supragingival plaque to attachment loss. Kaldahl WB, et al. 347.
DENTAL PLAQUE/analysis
A mineral-related feature of young plaque characteristic to periodontitis-affected adults. Sewón L, et al. 42.
Reliability of crevicular fluid measurements taken in the presence of supragingival plaque. Stoller NH, et al. 670.
DENTAL PLAQUE/microbiology
Effect of 6 months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.
Identification of *Actinobacillus actinomycetemcomitans* by gold immunolabeling and scanning electron microscopy. Carrassi A, et al. 249.
Studies of the subgingival microflora in patients with acquired immunodeficiency syndrome. Zambon JJ, et al. 699.
Susceptibility and resistance of plaque bacteria to minocycline. O'Connor BC, et al. 228.
Susceptibility of oral bacteria to phenoxyethanol and phenoxyethanol/chlorhexidine combinations. Wilson M, et al. 536.
DENTAL PLAQUE/prevention and control
Clinical efficacy of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride during 6 months of use. Harper DS, et al. 352.
Control of gingivitis and calculus by a dentifrice containing a zinc salt and triclosan. Stephen KW, et al. 674.
Plaque score changes based primarily on patient performance at specific time intervals. DeVore CH, et al. 343.

Susceptibility and resistance of plaque bacteria to minocycline. O'Connor BC, et al. 228.
DENTAL PLAQUE INDEX
Estimation of dental plaque levels and gingival inflammation using a simple oral rinse technique. Tal H, et al. 339.
Plaque score changes based primarily on patient performance at specific time intervals. DeVore CH, et al. 343.
Statistical properties of some clinical measures of gingivitis and periodontitis. Fleiss JL, et al. 201.
DENTAL PORCELAIN
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
Bone formation in tricalcium phosphate-filled periodontal intrabony lesions. Histological observations in humans. Saffar JL, et al. 209.
DENTAL PROPHYLAXIS
Clinical and microbiological effects of subgingival and gingival marginal irrigation with chlorhexidine gluconate. Jolkovsky DL, et al. 663.
DENTAL PROPHYLAXIS/adverse effects
The effect of air abrasive polishing on blood pH and electrolyte concentrations in healthy mongrel dogs. Snyder JA, et al. 81.
DENTIFRICES
Clinical efficacy of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride during 6 months of use. Harper DS, et al. 352.
Control of gingivitis and calculus by a dentifrice containing a zinc salt and triclosan. Stephen KW, et al. 674.
Effect of 6 months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.
DENTURE, PARTIAL, FIXED
Periodontal conditions following treatment with distally extending cantilever bridges or removable partial dentures in elderly patients. A 5-year study. Isidor F, et al. 21.
DENTURE, PARTIAL, REMOVABLE
Periodontal conditions following treatment with distally extending cantilever bridges or removable partial dentures in elderly patients. A 5-year study. Isidor F, et al. 21.
DESMOPRESSIN/therapeutic use
The use of desmopressin in the management of two patients with von Willebrand's disease undergoing periodontal surgery. 2 case reports. Petrover MG, et al. 239.
DIABETES MELLITUS
Total hemolytic complement (CH50) and its fractions (C3 and C4) in the sera of diabetic patients with periodontitis. Anil S, et al. 27.
DIGITAL ENHANCEMENT
Periodontal disease morbidity quantification. II. Validation of alveolar bone loss measurements and vertical defect diagnosis from digital bite-wing images. Hildebolt CF, et al. 623.
DIGITAL PROCESSING
Periodontal disease morbidity quantification. II. Validation of alveolar bone loss measurements and vertical defect diagnosis from digital bite-wing images. Hildebolt CF, et al. 623.
DIPHENYLHYDANTOIN/adverse effects
Diphenylhydantoin-induced gingival overgrowth in man: A clinico-pathological study. Peñarrocha-Diago M, et al. 571.
DOUBLE-BLIND STUDY
Analgesic efficacy of flurbiprofen as compared to acetaminophen and placebo after periodontal surgery. Gallardo F, et al. 224.
DOXYCYCLINE
In vitro release of doxycycline form bioabsorbable materials and acrylic strips. Larsen T. 30.
DRUGS/administration
A new degradable controlled release device for treatment of periodontal disease: in vitro release study. Steinberg D, et al. 393.

E

EDITORIAL 2, 65, 459.
EPINEPHRINE
Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.
EPITHELIAL ATTACHMENT
The histologic evaluation of new attachment in periodontally diseased human roots treated with tetracycline-hydrochloride and fibronectin. Alger FA, et al. 447.
EPITHELIAL HYPERPLASIA
Diphenylhydantoin-induced gingival overgrowth in man: A clinico-pathological study. Peñarrocha-Diago M, et al. 571.
ERRATUM
Table of Contents, October.
ERROR RATES
Assessment of relationships between site-specific variables. Hujoel PP, et al. 368.

F

FIBROBLASTS
The effects of scaling titanium implant surfaces with metal and plastic instruments on cell attachment. Dmytryk JJ, et al. 491.
Inhibition of attachment of human gingival fibroblast-like cells in vitro by saliva and salivary-sulfated glycoprotein in the presence of serum. Heaney TG, 504.
A quantitative analysis of the migration, attachment, and orientation of human gingival fibroblasts to human dental root surfaces in vitro. Fardal O, et al. 529.
FIBROBLASTS/growth
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
FIBRONECTIN

The histologic evaluation of new attachment in periodontally diseased human roots treated with tetracycline-hydrochloride and fibronectin. Alger FA, et al. 447.
Sorption of fibronectin to human root surfaces in vitro. Mendieta C, et al. 254.
FLUORIDES, TOPICAL/therapeutic use
Supragingival irrigation with 0.06% chlorhexidine in naturally occurring gingivitis. I. 6 Month clinical observations. Flemmig TF, et al. 112.
FLURBIPROFEN/therapeutic use
Analgesic efficacy of flurbiprofen as compared to acetaminophen and placebo after periodontal surgery. Gallardo F, et al. 224.
N-FORMYL-1-METHIONYL-1-LEUCYL-1-PHENYLALANINE
Antibodies directed to the chemotactic factor receptor detect differences between chemotactically normal and defective neutrophils from LJP patients. DeNardin E, et al. 609.
FURCATION DEFECTS/surgery
Treatment of Class II furcation defects using porous hydroxyapatite in conjunction with a polytetrafluoroethylene membrane. Lekovic V, et al. 575.
FURCATION DEFECTS/therapy
Class II furcations treated by guided tissue regeneration in humans: case reports. Caffesse RG, et al. 510.
Scanning electron microscopic observations of cell population and bacterial contamination of membranes used for guided tissue regeneration in humans. Selvig KA, et al. 515.
Treatment of Class II furcation defects using porous hydroxyapatite in conjunction with a polytetrafluoroethylene membrane. Lekovic V, et al. 575.
FUSOBACTERIUM NUCLEATUM
Parietal lobe abscess after routine periodontal recall therapy. Report of a case. Andersen WC, et al. 243.
FUSOBACTERIUM SP.
A family study of a mother and daughter with increased susceptibility to early-onset periodontitis: Microbiological, immunological, host defensive, and genetic analyses. Nishimura F, et al. 755.

G

GINGIVA/anatomy
Formation of interdental soft tissue defects after surgical treatment of periodontitis. Jenkins WMM, et al. 564.
The histologic evaluation of new attachment in periodontally diseased human roots treated with tetracycline-hydrochloride and fibronectin. Alger FA, et al. 447.
The retrocuspid papilla of the mandibular lingual gingiva. Buchner A, et al. 585.
GINGIVA/histology
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
Human gingival Langerhans cells stimulate allogeneic lymphocytes: Requirements for MHC Class II antigens. Walsh LJ, et al. 328.
GINGIVA/microbiology
Bacterial penetration of gingiva in the adult beagle dog with periodontitis. Silverstein LH, et al. 35.
GINGIVAL DISEASES/diagnosis
Gingival manifestations of Wegener's granulomatosis. Cohen RE, et al. 705.
The retrocuspid papilla of the mandibular lingual gingiva. Buchner A, et al. 585.
GINGIVAL DISEASES/histology
Oral manifestations of immunoproliferative small intestinal disease. A case report. Bartold PM, et al. 710.
GINGIVAL DISEASES/immunology
Oral manifestations of immunoproliferative small intestinal disease. A case report. Bartold PM, et al. 710.
GINGIVAL EXUDATE
Antibody to collagen type I in gingival crevicular fluid. Refaie A, et al. 289.
Relationship of gingival bleeding, gingival suppuration, and supragingival plaque to attachment loss. Kaldahl WB, et al. 347.
GINGIVAL EXUDATE/analysis
Morphologic and histochemical characteristics of the dental cuticle in teeth affected by prepubertal periodontitis. López NJ, et al. 95.
Reliability of crevicular fluid measurements taken in the presence of supragingival plaque. Stoller NH, et al. 670.
GINGIVAL HYPERPLASIA
Diphenylhydantoin-induced gingival overgrowth in man: A clinico-pathological study. Peñarrocha-Diago M, et al. 571.
GINGIVAL INDEX
Estimation of dental plaque levels and gingival inflammation using a simple oral rinse technique. Tal H, et al. 339.
Periodontal conditions following treatment with distally extending cantilever bridges or removable partial dentures in elderly patients. A 5-year study. Isidor F, et al. 21.
Statistical properties of some clinical measures of gingivitis and periodontitis. Fleiss JL, et al. 201.
GINGIVAL NEOPLASMS
A case of ameloblastoma presenting as an exophytic gingival lesion. Stevenson ARL, et al. 378.
Bone formation in peripheral giant cell granuloma. Dayan D, et al. 444.
Peripheral ameloblastoma of the gingiva. A case report. Mintz S, et al. 649.
Periodontal effects associated with the use of smokeless tobacco. Robertson PB, et al. 438.
GINGIVAL RECESSION
Prevalence and risk indicators for periodontal attachment loss in a population of older community-dwelling blacks and whites. Beck JD, et al. 521.
GINGIVAL RECESSION/etiology
Periodontal effects associated with the use of smokeless tobacco. Robertson PB, et al. 438.
GINGIVITIS
Effect of benign familial neutropenia on the periodontium of Yemenite Jews. Stabholz A, et al. 51.
GINGIVITIS/diagnosis

Estimation of dental plaque levels and gingival inflammation using a simple oral rinse technique. Tal H, et al. 339.
Relationship of gingival bleeding, gingival suppuration, and supragingival plaque to attachment loss. Kaldahl WB, et al. 347.
GINGIVITIS/microbiology
Effect of 6-months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.
Irrigation with 0.06% chlorhexidine in naturally occurring gingivitis. II. 6 months microbiological observations. Newman MG, et al. 427.
Studies of the subgingival microflora in patients with acquired immunodeficiency syndrome. Zambon JJ, et al. 699.
GINGIVITIS/prevention and control
Clinical efficacy of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride during 6 months of use. Harper DS, et al. 352.
GINGIVITIS/therapy
Supragingival irrigation with 0.06% chlorhexidine in naturally occurring gingivitis. I. 6 Month clinical observations. Flemmig TF, et al. 112.
GINGIVITIS, NECROTIZING ULCERATIVE
Necrotizing ulcerative gingivitis and cancrum oris (noma) in Ibadan, Nigeria. Osuji OO. 769.
GLYCOPROTEINS
Inhibition of attachment of human gingival fibroblast-like cells in vitro by saliva and salivary-sulfated glycoprotein in the presence of serum. Heaney TG, 504.
GLYCOSAMINOGLYCANS/analysis
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
GOLD, COLLOIDAL
Identification of *Actinobacillus actinomycetemcomitans* by gold immunolabeling and scanning electron microscopy. Carrassi A, et al. 249.
GRANULOMA, GIANT CELL
Bone formation in peripheral giant cell granuloma. Dayan D, et al. 444.
GUIDED TISSUE REGENERATION
Class II furcations treated by guided tissue regeneration in humans: Case reports. Caffesse RG, et al. 510.
Clinical evaluation of a biodegradable collagen membrane in guided tissue regeneration. Chung KM, et al. 732.
Furcation defects in dogs treated by guided tissue regeneration (GTR). Caffesse RG, et al. 45.
Guided tissue regeneration following treatment of recession-type defects in the monkey. Gottlow J, et al. 680.
Scanning electron microscopic observations of cell population and bacterial contamination of membranes used for guided tissue regeneration in humans. Selvig KA, et al. 515.

H

HIV/complications
Studies of the subgingival microflora in patients with acquired immunodeficiency syndrome. Zambon JJ, et al. 699.
HTR POLYMER
HTR polymer grafts in human periodontal osseous defects. I. Six-month clinical results. Yukna RA. 633.
HTR polymer particles in 11 intrabony lesions. Stahl SS, et al. 269.
HEMOSTASIS
Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.
HEPARIN
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.
HEREDITY
Actinobacillus actinomycetemcomitans in families afflicted with early onset periodontitis. Gunsolley JC, et al. 643.
HOST FACTORS
Assessment of relationships between site-specific variables. Hujoel PP, et al. 368.
A family study of a mother and daughter with increased susceptibility to early-onset periodontitis: Microbiological, immunological, host defensive, and genetic analyses. Nishimura F, et al. 755.
HYALURONIC ACID
Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
HYDROXYAPATITES
Comparative clinical study of porous hydroxyapatite and decalcified freeze-dried bone in human periodontal defects. Oreamuno S, et al. 399.
Localized ridge augmentation in dogs: A pilot study using membranes and hydroxyapatite. Seibert J, et al. 157.
The osteogenic potential of two composite graft systems using osteogenin. Doll BA, et al. 745.
HYDROXYAPATITES/therapeutic use
Treatment of Class II furcation defects using porous hydroxyapatite in conjunction with a polytetrafluoroethylene membrane. Lekovic V, et al. 575.

I

IgA
Production of immunoglobulins in gingival tissue explant cultures from juvenile periodontitis patients. Hall ER, et al. 603.
IgG
Production of immunoglobulins in gingival tissue explant cultures from juvenile periodontitis patients. Hall ER, et al. 603.
IgG/analysis
Serum antibodies to periodontal bacteria. Gunsolley JC, et al. 411.
IgG ANTIBODIES
Antibody to collagen type I in gingival crevicular fluid. Refaie A, et al. 289.

Detection of *Bacteroides gingivalis* antigenic proteins by immunoblotting analysis. Laosrisin N, et al. 260.
Serum antibodies to periodontal bacteria. Gunsolley JC, et al. 411.
IgM
Stimulation of lymphocytes in vitro by *Bacteroides intermedius* and *Bacteroides (Porphyromonas) gingivalis* sonicates. Raber-Durlacher JE, et al. 217.
IMAGE ANALYSIS SYSTEM
A computer-aided image analysis system for area measurement of tooth root surfaces. Verdonschot EH, et al. 275.
IMMUNOGLOBULINS
Production of immunoglobulins in gingival tissue explant cultures from juvenile periodontitis patients. Hall ER, et al. 603.
IMMUNOLABELING
Identification of *Actinobacillus actinomycetemcomitans* by gold immunolabeling and scanning electron microscopy. Carrassi A, et al. 249.
IN MEMORIAM
Bass, Paul, 308.
Dickinson, Gary L., 714.
Doran, Edward, 714.
Gruchalla, Frank, 308.
Harris, Irvin, 714.
Hebert, Maurice, 308.
Johnson, Raymond E. (obituary), 308.
Kittayanond, Niramon, 308.
Less, William C. 308.
Lewis, A. Budner, 714.
Millard, Glen E., 308.
O'Shields, Paul, 714.
Pendergast, William J., Jr. 714.
Prichard, John F., 714 (obituary, 715).
Ross, Norton, 714.
Schluger, Saul, 714 (obituary, 661).
Thiele, Robert N., 308.
INCISOR/anatomy
The association between palatal grooves in upper incisors and periodontal complications. Bačić M, et al. 197.
INTERDENTAL CLEFTS
Formation of interdental soft tissue defects after surgical treatment of periodontitis. Jenkins WMM, et al. 564.
INTERDENTAL CRATERS
Formation of interdental soft tissue defects after surgical treatment of periodontitis. Jenkins WMM, et al. 564.
IRRIGATION
Effects of subgingival irrigation on bacteremia following scaling and root planing. Waki MY, et al. 405.
Irrigation with 0.06% chlorhexidine in naturally occurring gingivitis. II. 6 months microbiological observations. Newman MG, et al. 427.

J

JEWS, YEMENITE
Effect of benign familial neutropenia on the periodontium of Yemenite Jews. Stabholz A, et al. 51.
JOURNAL OF PERIODONTOLOGY, 2.
Ad hoc reviewers 67.
Instructions to authors 70, 463.

L

LETTERS TO THE EDITOR 68, 305, 462.
LEUKOCYTES, POLYMORPHONUCLEAR
Periodontitis associated with Papillon-LeFèvre Syndrome. Bimstein E, et al. 373.
LIDOCAINE
Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.
LYMPHOCYTES
Human gingival Langerhans cells stimulate allogeneic lymphocytes: Requirements for MHC Class II antigens. Walsh LJ, et al. 328.
Stimulation of lymphocytes in vitro by *Bacteroides intermedius* and *Bacteroides (Porphyromonas) gingivalis* sonicates. Raber-Durlacher JE, et al. 217.

M

MEETING ANNOUNCEMENTS 69, 147, 200, 382, 542, 776.
METRONIDAZOLE/therapeutic use
The effect of systemic metronidazole after non-surgical treatment in moderate and advanced periodontitis in young adults. Söder, P-O, et al. 281.
Microbiology in diagnosis and treatment of severe periodontitis. A report of four cases. Goené RJ, et al. 61.
MINOCYCLINE/therapeutic use
Microbiology in diagnosis and treatment of severe periodontitis. A report of four cases. Goené RJ, et al. 61.
Susceptibility and resistance of plaque bacteria to minocycline. O'Connor BC, et al. 228.
MODELS, EXPERIMENTAL
Production of immunoglobulins in gingival tissue explant cultures from juvenile periodontitis patients. Hall ER, et al. 603.
MODELS, STATISTICAL
Assessment of relationships between site-specific variables. Hujoel, PP, et al. 368.
MOLAR, THIRD
Myospherulosis. Report of a case. Wallace ML, et al. 55.
MONOCLONAL ANTIBODY BINDING
Antibodies directed to the chemotactic factor receptor detect differences between chemotactically normal and defective neutrophils from LJP patients. DeNardin E, et al. 609.
MOUTH/microbiology
Effect of 6 months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.
Estimation of dental plaque levels and gingival inflammation using a simple oral rinse technique. Tal H, et al. 339.

Periodontitis associated with Papillon-LeFèvre syndrome. Bimstein E, et al. 373.
MOUTH NEOPLASMS
Periodontal effects associated with the use of smokeless tobacco. Robertson PB, et al. 438.
MOUTHWASHES
Clinical efficacy of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride during 6 months of use. Harper DS, et al. 352.
Effect of 6 months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.
MULTIPLE MYELOMA/diagnosis
Multiple myeloma of the periodontium. A case report. Petit, JC, et al. 132.
MYOSPHERULOSIS
Myospherulosis. Report of a case. Wallace ML, et al. 55.

N

NEUROFIBROMA
Neurofibroma of the palatal mucosa. A case report. Pollack RP, 456.
Erratum, Table of Contents, October issue.
NEUTROPENIA, BENIGN FAMILIAL
Effect of benign familial neutropenia on the periodontium of Yemenite Jews. Stabholz A, et al. 51.
NEUTROPHIL SURFACE MARKERS
Neutrophil surface protein markers as indicators of defective chemotaxis in LJP. Van Dyke TE, et al. 180.
NEUTROPHILS
A family study of a mother and daughter with increased susceptibility to early-onset periodontitis: Microbiological, immunological, host defensive, and genetic analyses. Nishimura F, et al. 755.
NEUTROPHILS/abnormalities
Neutrophil surface protein markers as indicators of defective chemotaxis in LJP. Van Dyke TE, et al. 180.

O

OBITUARY
Raymond E. Johnson 308.
John Prichard 715.
Saul Schluger 661.
ODONTOGENIC TUMOR
A case of ameloblastoma presenting as an exophytic gingival lesion. Stevenson ARL, et al. 378.
ORAL HYGIENE
Clinical and microbiological effects of subgingival and gingival marginal irrigation with chlorhexidine gluconate. Jolkovsky DL, et al. 663.
Effects of subgingival irrigation on bacteremia following scaling and root planing. Waki MY, et al. 405.
Plaque score changes based primarily on patient performance at specific time intervals. DeVore CH, et al. 343.
ORTHODONTICS, CORRECTIVE
Effects on the periodontium following corticotomy-facilitated orthodontics. Case reports. Gantes B, et al. 234.
OSSEOINTEGRATION
Formation of periodontal ligament around titanium implants. Buser D, et al. 597.
OSTEOGENESIS
The osteogenic potential of two composite graft systems using osteogenin. Doll BA, et al. 745.
OSTEOGENIN
The osteogenic potential of two composite graft systems using osteogenin. Doll BA, et al. 745.

P

PAIN, POSTOPERATIVE
Analgesic efficacy of flurbiprofen as compared to acetaminophen and placebo after periodontal surgery. Gallardo F, et al. 224.
PALATAL NEOPLASMS
Neurofibroma of the palatal mucosa. A case report. Pollack RP, 456.
PAPILLA, RETROCUSPID
The retrocuspid papilla of the mandibular lingual gingiva. Buchner A, et al. 585.
PAPILLON-LEFÈVRE SYNDROME
Periodontitis associated with Papillon-LeFèvre syndrome. Bimstein E, et al. 373.
PARIETAL LOBE ABSCESS
Parietal lobe abscess after routine periodontal recall therapy. Report of a case. Andersen WC, et al. 243.
PATIENTS AT RISK
Necrotizing ulcerative gingivitis and cancrum oris (noma) in Ibadan, Nigeria. Osuji OO. 769.
PEPTOSTREPTOCOCCUS
Parietal lobe abscess after routine periodontal recall therapy. Report of a case. Andersen WC, et al. 243.
PERIODONTAL ATTACHMENT
Biphasic calcium phosphate ceramic combined with fibrillar collagen with and without citric acid conditioning in the treatment of periodontal osseous defects. Nery EB, et al. 166.
Episodic probing attachment loss in humans: Histologic associations. Zappa U, et al. 420.
Periodontal effects associated with the use of smokeless tobacco. Robertson PB, et al. 438.
Relationship of gingival bleeding, gingival suppuration, and supragingival plaque to attachment loss. Kaldahl WB, et al. 347.
Responses of four tooth and site groupings to periodontal therapy. Kaldahl WB, et al. 173.
Statistical properties of some clinical measures of gingivitis and periodontitis. Fleiss, J.L. et al. 201.
PERIODONTAL CYSTS
Lateral periodontal cyst. Review of the literature and report of a case. Angelopoulou E, et al. 126.
PERIODONTAL DISEASES
Early-onset periodontititis: Radiographic patterns of alveolar bone loss in 55 cases from a selected Malaysian population. Yusof ZA. 751.

The effectiveness of subgingival scaling and root planing. I. Clinical detection of residual calculus. Sherman PR, et al. 3.
The effectiveness of subgingival scaling and root planing. II. Clinical responses related to residual calculus. Sherman, PR, et al. 9.
Periodontal conditions following treatment with distally extending cantilever bridges or removable partial dentures in elderly patients. A 5-year study. Isidor F, et al. 21.
Total calculus removal: An attainable objective. Kepic TJ, et al. 16.
PERIODONTAL DISEASES/complications
Parietal lobe abscess after routine periodontal recall therapy. Report of a case. Andersen WC, et al. 243.
PERIODONTAL DISEASES/diagnosis
Comparison of measurement variability using a standard and constant force periodontal probe. Osborn J, et al. 497.
Formation of interdental soft tissue defects after surgical treatment of periodontitis. Jenkins WMM, et al. 564.
Multi-center clinical evaluation of a chairside method for detecting certain periodontopathic bacteria in periodontal disease. Loesche WJ, et al. 189.
Multiple myeloma of the periodontium. A case report. Petit JC, et al. 132.
Periodontal disease activity: A critical assessment. Greenstein G, et al. 543.
Relationship of gingival bleeding, gingival suppuration, and supragingival plaque to attachment loss. Kaldahl WB, et al. 347.
PERIODONTAL DISEASES/etiology
The association between palatal grooves in upper incisors and periodontal complications. Bačić M, et al. 197.
PERIODONTAL DISEASES/histology
Oral manifestations of immunoproliferative small intestinal disease. A case report. Bartold PM, et al. 710.
PERIODONTAL DISEASES/immunology
Oral manifestations of immunoproliferative small intestinal disease. A case report. Bartold PM, et al. 710.
PERIODONTAL DISEASES/instrumentation
Comparison of measurement variability using a standard and constant force periodontal probe. Osborn J, et al. 497.
PERIODONTAL DISEASES/microbiology
Multi-center clinical evaluation of a chairside method for detecting certain periodontopathic bacteria in periodontal disease. Loesche WJ, et al. 189.
PERIODONTAL DISEASES/pathogenesis
Identification of *Actinobacillus actinomycetemcomitans* by gold immunolabeling and scanning electron microscopy. Carrassi A, et al. 249.
PERIODONTAL DISEASES/prevention and control
Association of smoking with periodontal treatment needs. Goultschin J, et al. 364.
PERIODONTAL DISEASES/radiography
Guest editorial. Interpretation of radiographic data on longitudinal loss of periodontal support. Wennstrom JL. 459.
PERIODONTAL DISEASES/surgery
Analgesic efficacy of flurbiprofen as compared to acetaminophen and placebo after periodontal surgery. Gallardo F, et al. 224.
Class II furcations treated by guided tissue regeneration in humans: Case reports. Caffesse RG, et al. 510.
Comparative clinical study of porous hydroxyapatite and decalcified freeze-dried bone in human periodontal defects. Oreamuno S, et al. 399.
Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.
Furcation defects in dogs treated by guided tissue regeneration (GTR). Caffesse RG, et al. 45.
Human clinical and histologic responses to the placement of HTR polymer grafts in human periodontal osseous defects. I. Six-month clinical results. Yukna RA. 633.
HTR polymer particles in 11 intrabony lesions. Stahl SS, et al. 269.
Oxidized cellulose mesh used as a biodegradable membrane in the technique of guided tissue regeneration. A case report. Galgut PN. 766.
Periodontal repair in dogs: Effect of saliva contamination of the root surface. Wikesjö UME, et al. 559.
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.
Responses of four tooth and site groupings to periodontal therapy. Kaldahl WB, et al. 173.
Scanning electron microscopic observations of cell population and bacterial contamination of membranes used for guided tissue regeneration in humans. Selvig KA, et al. 515.
PERIODONTAL DISEASES/therapy
Bone formation in tricalcium phosphate-filled periodontal intrabony lesions. Histological observations in humans. Saffar JL, et al. 209.
Clinical evaluation of a biodegradable collagen membrane in guided tissue regeneration. Chung KM, et al. 732.
Guided tissue regeneration following treatment of recession-type defects in the monkey. Gottlow J, et al. 680.
In vitro release of doxycycline from bioabsorbable materials and acrylic strips. Larsen T. 30.
Parietal lobe abscess after routine periodontal recall therapy. Report of a case. Andersen WC, et al. 243.
Responses of four tooth and site groupings to periodontal therapy. Kaldahl WB, et al. 173.
The use of collagen membrane barriers in conjunction with combined demineralized bone-collagen gel implants in human infrabony defects. Blumenthal N, et al. 319.
A Veterans Administration Cooperative Study of biphasic calcium phosphate ceramic in periodontal osseous defects. Nery EB, et al. 737.
PERIODONTAL DRESSINGS
In vitro release of doxycycline from bioabsorbable materials and acrylic strips. Larsen T. 30.
PERIODONTAL INDEX
Association of smoking with periodontal treatment needs. Goultschin J, et al. 364.
Statistical properties of some clinical measures of gingivitis and periodontitis. Fleiss JC, et al. 201.
PERIODONTAL LIGAMENT

Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.
Formation of periodontal ligament around titanium implants. Buser D, et al. 597.
PERIODONTAL POCKETS
The apical location of calculus within the intrabody defect. Richardson AC, et al. 118.
Prevalence and risk indicators for periodontal attachment loss in a population of older community-dwelling blacks and whites. Beck JD, et al. 521.
PERIODONTAL POCKETS/microbiology
Microscopic characterization of root surface-associated microbial plaque in localized juvenile periodontitis. Douglass KD, et al. 475.
PERIODONTAL POCKETS/surgery
Class II furcations treated by guided tissue regeneration in humans: Case reports. Caffesse RG, et al. 510.
Human clinical and histologic responses to the placement of HTR polymer particles in 11 intrabony lesions. Stahl SS, et al. 269.
PERIODONTAL POCKETS/therapy
Increase of interproximal bone density after subgingival instrumentation: A quantitative radiographical study. Dubrez B, et al. 725.
PERIODONTITIS
Early-onset periodontitis: Radiographic patterns of alveolar bone loss in 55 cases from a selected Malaysian population. Yusof ZA. 751.
Effect of benign familial neutropenia on the periodontium of Yemenite Jews. Stabholz A, et al. 51.
Total hemolytic complement (CH50) and its fractions (C3 and C4) in the sera of diabetic patients with periodontitis. Anil S, et al. 27.
PERIODONTITIS/diagnosis
Alveolar bone loss in patients with long-term supportive care. Layport CA, et al. 434.
Ectopic gingival sebaceous glands presenting as localized periodontitis. Cohen RE, et al. 58.
Episodic probing attachment loss in humans: Histologic associations. Zappa U, et al. 420.
Microbiology in diagnosis and treatment of severe periodontitis. A report of four cases. Goené RJ, et al. 61.
Neutrophil surface protein markers as indicators of defective chemotaxis in LJP. Van Dyke TE, et al. 180.
Occurrence of periodontitis in an urban adolescent population. Perry DA, et al. 185.
Serum antibodies to periodontal bacteria. Gunsolley JC, et al. 411.
PERIODONTITIS/drug therapy
The effect of clindamycin on the microbiota associated with refractory periodontitis. Walker C, et al. 692.
The effect of systemic metronidazole after non-surgical treatment in moderate and advanced periodontitis in young adults. Söder PO. et al, 281.
Microbiology in diagnosis and treatment of severe periodontitis. A report of four cases. Goené RJ, et al. 61.
Susceptibility and resistance of plaque bacteria to minocycline. O'Connor BC, et al. 228.
PERIODONTITIS/etiology
Bacterial penetration of gingiva in the adult beagle dog with periodontitis. Silverstein LH, et al. 35.
A mineral-related feature of young plaque characteristic to periodontitis-affected adults. Sewón L, et al. 42.
PERIODONTITIS/immunology
Detection of *Bacteroides gingivalis* antigenic proteins by immunoblotting analysis. Laosrisin N, et al. 260.
PERIODONTITIS/microbiology
Actinobacillus actinomycetemcomitans in families afflicted with early onset periodontitis. Gunsolley JC, et al. 643.
Bacterial penetration of gingiva in the adult beagle dog with periodontitis. Silverstein LH, et al. 35.
The effect of clindamycin on the microbiota associated with refractory periodontitis. Walker C, et al. 692.
Histological differences between teeth with adult periodontitis and prepubertal periodontitis. López NJ, et al. 87.
Microbiology in diagnosis and treatment of severe periodontitis. A report of four cases. Goené RJ, et al. 61.
Molecular genetic analysis of *Actinobacillus actinomycetemcomitans* epidemiology. Zambon JJ, et al. 75.
Recolonization of the subgingival microflora after scaling and root planing in human periodontitis. Sbordone L, et al. 579.
Studies of the subgingival microflora in patients with acquired immunodeficiency syndrome. Zambon JJ, et al. 699.
Susceptibility and resistance of plaque bacteria to minocycline. O'Connor BC, et al. 228.
PERIODONTITIS/occurrence
Occurrence of periodontitis in an urban adolescent population. Perry DA, et al. 185.
PERIODONTITIS/pathogenesis
Molecular genetic analysis of *Actinobacillus actinomycetemcomitans* epidemiology. Zambon JJ, et al. 75.
Morphologic and histochemical characteristics of the dental cuticle in teeth affected by prepubertal periodontitis. López NJ, et al. 95.
PERIODONTITIS/prevention and control
Alveolar bone loss in patients with long-term supportive care. Layport CA, et al. 434.
PERIODONTITIS/radiography
Alveolar bone loss in patients with long-term supportive care. Layport CA, et al. 434.
PERIODONTITIS/surgery
Formation of interdental soft tissue defects after surgical treatment of periodontitis. Jenkins WMM, et al. 564.
Furcation defects in dogs treated by guided tissue regeneration (GTR). Caffesse RG, et al. 45.
PERIODONTITIS/therapy
Efficacy of clindamycin hydrochloride in refractory periodontitis: 24-month results. Gordon J, et al. 686.
PERIODONTITIS, JUVENILE
A family study of a mother and daughter with increased susceptibility to early-onset periodontitis: Microbiological, immunological, host defensive, and genetic analyses. Nishimura F, et al. 755.
Generalized juvenile periodontitis: Report of a familial case followed for 5 years. Sbordone L, et al. 590.
Microscopic characterization of root surface-associated microbial plaque in localized juvenile periodontitis. Douglass KD, et al. 475.

Neutrophil surface protein markers as indicators of defective chemotaxis in LJP. Van Dyke TE, et al. 180.

PERIODONTITIS, JUVENILE/immunology

Production of immunoglobulins in gingival tissue explant cultures from juvenile periodontitis patients. Hall ER, et al. 603.

PERIODONTITIS, JUVENILE/pathogenesis

Antibodies directed to the chemotactic factor receptor detect differences between chemotactically normal and defective neutrophils from LJP patients. DeNardin E, et al. 609.

Production of immunoglobulins in gingival tissue explant cultures from juvenile periodontitis patients. Hall ER, et al. 603.

PERIODONTITIS, JUVENILE/therapy

Repair potential in localized juvenile periodontitis. A case in point. Mattout P, et al. 653.

PERIODONTITIS, RAPIDLY PROGRESSIVE

A family study of a mother and daughter with increased susceptibility to early-onset periodontitis: Microbiological, immunological, host defensive, and genetic analyses. Nishimura F, et al. 755.

Osseo-integrated implant treatment of a patient with rapidly progressive periodontitis. A case report. Malmstrom HS, et al. 300.

PERIODONTITIS, RAPIDLY PROGRESSIVE/immunology

Detection of *Bacteroides gingivalis* antigenic proteins by immunoblotting analysis. Laosrisin N, et al. 260.

PHENOXYETHANOL

Susceptibility of oral bacteria to phenoxyethanol and phenoxyethanol/chlorhexidine combinations. Wilson M, et al. 536.

PLANING

The effectiveness of subgingival scaling and root planing. I. Clinical detection of residual calculus. Sherman PR, et al. 3.

The effectiveness of subgingival scaling and root planing. II. Clinical responses related to residual calculus. Sherman PR, et al. 9.

Effects of subgingival irrigation on bacteremia following scaling and root planing. Waki MY, et al. 405.

Guest editorial: The residual calculus paradox. Robertson PB. 65.

Recolonization of the subgingival microflora after scaling and root planing in human periodontitis. Sbordone L, et al. 579.

Responses of four tooth and site groupings to periodontal therapy. Kaldahl WB, et al. 173.

PLANING/instrumentation

Total calculus removal: An attainable objective. Kepic TJ, et al. 16.

PLASMA/analysis

Effects of anesthetics containing epinephrine on catecholamine levels during periodontal surgery. Davenport RE, et al. 553.

POLISHING

Effects of airpolishing on dental plaque removal and hard tissues as evaluated by scanning electron microscopy. Kontturi-Närhi V, et al. 334.

POLYLACTIC ACID

Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.

POLYMORPHONUCLEAR LEUKOCYTES

Antibodies directed to the chemotactic factor receptor detect differences between chemotactically normal and defective neutrophils from LJP patients. DeNardin E, et al. 609.

POLYTETRAFLUOROETHYLENE

Guided tissue regeneration following treatment of recession-type defects in the monkey. Gottlow J, et al. 680.

Scanning electron microscopic observations of cell population and bacterial contamination of membranes used for guided tissue regeneration in humans. Selvig KA, et al. 515.

PROTEINS/analysis

Characterization of fibroblasts derived from human periodontal ligament and gingiva. Mariotti A, et al. 103.

R

RADIATION EFFECTS

A contemporary perspective on techniques for the clinical assessment of alveolar bone. Hausmann E. 149.

RADIOGRAPHY, DENTAL

A contemporary perspective on techniques for the clinical assessment of alveolar bone. Hausmann E. 149.

RADIOTHERAPY

A contemporary perspective on techniques for the clinical assessment of alveolar bone. Hausmann E. 149.

RESEARCH, DENTAL

Common problems with statistical aspects of periodontal research papers. Emrich LJ. 206.

RESTRICTION ENDONUCLEASE ANALYSIS

Molecular genetic analysis of *Actinobacillus actinomycetemcomitans* epidemiology. Zambon JJ, et al. 75.

S

SALIVA

Inhibition of attachment of human gingival fibroblast-like cells in vitro by saliva and salivary-sulfated glycoprotein in the presence of serum. Heaney TG. 504.

SALIVA/adverse effects

Periodontal repair in dogs: Effect of saliva contamination of the root surface. Wikesjö UME, et al. 559.

SANGUINARIA

Clinical efficacy of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride during 6 months of use. Harper DS, et al. 352.

Effect of 6 months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.

SCALING

The effect of clindamycin on the microbiota associated with refractory periodontitis. Walker C, et al. 692.

The effectiveness of subgingival scaling and root planing. I. Clinical detection of residual calculus. Sherman PR, et al. 3.

The effectiveness of subgingival scaling and root planing. II. Clinical responses related to residual calculus. Sherman PR, et al. 9.
The effects of scaling a titanium implant surface with metal and plastic instruments: An in vitro study. Fox SC, et al. 485.
The effects of scaling titanium implant surfaces with metal and plastic instruments on cell attachment. Dmytryk JJ, et al. 491.
Effects of subgingival irrigation on bacteremia following scaling and root planing. Waki MY, et al. 405.
Guest editorial: The residual calculus paradox. Robertson PB. 65.
A quantitative study of cementum removal with hand curettes. Coldiron NB, et al. 293.
Recolonization of the subgingival microflora after scaling and root planing in human periodontitis. Sbordone L, et al. 579.
Responses of four tooth and site groupings to periodontal therapy. Kaldahl WB, et al. 173.
Total calculus removal: An attainable objective. Kepic, TJ, et al. 16.
SCANNING ELECTRON MICROSCOPY/methods
Identification of *Actinobacillus actinomycetemcomitans* by gold immunolabeling and scanning electron microscopy. Carrassi A, et al. 249.
SEBACEOUS GLANDS, GINGIVAL/diagnosis
Ectopic gingival sebaceous glands presenting as localized periodontitis. Cohen RE, et al. 58.
SITE-SPECIFIC EFFECTS
Assessment of relationships between site-specific variables. Hujoel PP, et al. 368.
SODIUM BICARBONATE
The effect of air abrasive polishing on blood pH and electrolyte concentrations in healthy mongrel dogs. Snyder JA, et al. 81.
SODIUM HYPOCHLORITE
Sorption of fibronectin to human root surfaces in vitro. Mendieta C, et al. 254.
SOFT TISSUE/anatomy
Formation of interdental soft tissue defects after surgical treatment of periodontitis. Jenkins WMM, et al. 564.
STATISTICS
Common problems with statistical aspects of periodontal research papers. Emrich LJ, 206.
SUBGINGIVAL CURETTAGE
Increase of interproximal bone density after subgingival instrumentation: A quantitative radiographical study. Dubrez B, et al. 725.
SURGICAL FLAPS
Effects on the periodontium following corticotomy-facilitated orthodontics. Case reports. Gantes B, et al. 234.
HTR polymer grafts in human periodontal osseous defects. I. Six-month clinical results. Yukna RA. 633.
Oxidized cellulose mesh used as a biodegradable membrane in the technique of guided tissue regeneration. A case report. Galgut PN. 766.
Scanning electron microscopic observations of cell population and bacterial contamination of membranes used for guided tissue regeneration in humans. Selvig KA, et al. 515.
A Veterans Administration Cooperative Study of biphasic calcium phosphate ceramic in periodontal osseous defects. Nery EB, et al. 737.

T

T-CELL ACTIVATION
Stimulation of lymphocytes in vitro by *Bacteroides intermedius* and *Bacteroides (Porphyromonas) gingivalis* sonicates. Raber-Durlacher JE, et al. 217.
TETRACYCLINE/therapeutic use
The histologic evaluation of new attachment in periodontally diseased human roots treated with tetracycline-hydrochloride and fibronectin. Alger FA, et al. 447.
TITANIUM
The effects of scaling a titanium implant surface with metal and plastic instruments: An in vitro study. Fox SC, et al. 485.
The effects of scaling titanium implant surfaces with metal and plastic instruments on cell attachment. Dmytryk JJ, et al. 491.
Formation of periodontal ligament around titanium implants. Buser D, et al. 597.
TOBACCO/adverse effects
Association of smoking with periodontal treatment needs. Goultschin J, et al. 364.
Prevalence and risk indicators for periodontal attachment loss in a population of older community-dwelling blacks and whites. Beck JD, et al. 521.
TOBACCO, SMOKELESS/adverse effects
Periodontal effects associated with the use of smokeless tobacco. Robertson PB, et al. 438.
TOOTH EXTRACTION/adverse effects
Myospherulosis. Report of a case. Wallace ML, et al. 55.
TOOTH GERMS
Repair potential in localized juvenile periodontitis. A case in point. Mattout P, et al. 653.
TOOTH REPLANTATION
Repair potential in localized juvenile periodontitis. A case in point. Mattout P, et al. 653.
TOOTH RESORPTION
Histological differences between teeth with adult periodontitis and prepubertal peridontitis. López NJ, et al. 87.
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.
TOOTH ROOT
Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.
A quantitative analysis of the migration, attachment, and orientation of human gingival fibroblasts to human dental root surfaces in vitro. Fardal O, et al. 529.
A quantitative study of cementum removal with hand curettes. Coldiron NB, et al. 293.
TOOTH ROOT/abnormalities

Furcation defects in dogs treated by guided tissue regeneration (GTR). Caffesse RG, et al. 45.

TOOTH ROOT/anatomy

A computer-aided image analysis system for area measurement of tooth root surfaces. Verdonschot EH, et al. 275.

The histologic evaluation of new attachment in periodontally diseased human roots treated with tetracycline-hydrochloride and fibronectin. Alger FA, et al. 447.

TOOTH ROOT/microbiology

Microscopic characterization of root surface-associated microbial plaque in localized juvenile periodontitis. Douglass KD, et al. 475.

TOOTH ROOT/surgery

Periodontal repair in dogs: Effect of saliva contamination of the root surface. Wikesjö UME, et al. 559.

Recolonization of the subgingival microflora after scaling and root planing in human periodontitis. Sbordone, L. et al. 579.

TOOTHBRUSHING

Control of gingivitis and calculus by a dentifrice containing a zinc salt and triclosan. Stephen KW, et al. 674.

Plaque score changes based primarily on patient performance at specific time intervals. DeVore CH, et al. 343.

TREPONEMA DENTICOLA

Multi-center clinical evaluation of a chairside method for detecting certain periodontopathic bacteria in periodontal disease. Loesche WJ, et al. 189.

TRICLOSAN

Control of gingivitis and calculus by a dentifrice containing a zinc salt and triclosan. Stephen KW, et al. 674.

TWINS

Generalized juvenile periodontitis: Report of a familial case followed for 5 years. Sbordone L, et al. 590.

V

VON WILLEBRAND'S DISEASE

The use of desmopressin in the management of two patients with von Willebrand's disease undergoing periodontal surgery. 2 case reports. Petrover MG, et al. 239.

W

WEGENER'S GRANULOMATOSIS

Gingival manifestations of Wegener's granulomatosis. Cohen RE, et al. 705.

WOUND HEALING

Bone formation in tricalcium phosphate-filled periodontal intrabony lesions. Histological observations in humans. Saffar JL, et al. 209.

Formation of periodontal ligament around titanium implants. Buser D, et al. 597.

Localized ridge augmentation in dogs: A pilot study using membranes and hydroxyapatite. Seibert J, et al. 157.

Oxidized cellulose mesh used as a biodegradable membrane in the technique of guided tissue regeneration. A case report. Galgut PN. 766.

Periodontal repair in dogs: Effect of wound stabilization on healing. Wikesjö UME, et al. 719.

Treatment of Class II furcation defects using porous hydroxylapatite in conjunction with a polytetrafluoroethylene membrane. Lekovic V, et al. 575.

Z

ZINC CHLORIDE

Clinical efficacy of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride during 6 months of use. Harper DS, et al. 352.

Effect of 6 months use of a dentifrice and oral rinse containing sanguinaria extract and zinc chloride upon the microflora of the dental plaque and oral soft tissues. Harper DS, et al. 359.

ZINC CITRATE

Control of gingivitis and calculus by a dentifrice containing a zinc salt and triclosan. Stephen KW, et al. 674.
